- A breast pump
- Educational materials
- A special delivery package

We'll give you a booklet to help you keep track of all the ways you take care of yourself and your baby through the Healthy Heartbeats program.

- Maintain a healthy lifestyle
- Get the proper preventative care
- Get breastfeeding resources and support

How does Healthy Heartbeats work?

Soon after we learn you are pregnant, one of our Member Outreach Representatives will get in touch with you. They will also talk to you about your pregnancy and health care needs, and tell you all about the Healthy Heartbeats program. This may include an in-home visit.

Your representative will support you throughout your pregnancy, and for the first two months after you have your baby.
