Partnership with DarioHealth Supports Members with Type 2 Diabetes

Date: July 5, 2022

Virginia Premier is pleased to announce a new partnership to offer additional support to members with type 2 diabetes. DarioHealth helps members with chronic conditions, such as diabetes, to manage their health. This program provides a comprehensive digital solution for diabetes via a smartphone app. Participants receive personalized experiences that drive behavioral changes to improve their health through evidence-based interventions, specialized coaching, and more.

In the coming weeks, Virginia Premier will reach out to members who qualify for this program. As a provider, you do not need to take any action. This program will complement the care our members receive and may contribute to improvements in health outcomes. See the details below to learn more.

Is there a cost to use Dario?

Dario is covered by Virginia Premier at no cost to eligible members. In other words, there are no copays or cost-sharing applied to the Dario program for members.

How do members find out about Dario?

Virginia Premier Medicaid and Advantage Elite (HMO D-SNP) members over 18 with type 2 diabetes are identified by claims data and this information is shared with Dario. They will receive an email or letter offering them the program with a phone number and website to enroll. We encourage members to enroll. Eligible members may be invited to enroll based on their individual needs; enrollment experiences may vary by eligible member.

What members are eligible to participate in Dario?

Virginia Premier Medicaid and Advantage Elite members, who meet the criteria, are eligible.
